As a Computer Science Engineering student in my fourth year of studies, my objective is to secure an internship or co-op opportunity that will allow me to apply and enhance my technical skills in a real-world setting. I am seeking a position in a dynamic organization where I can work on challenging projects and collaborate with experienced professionals in the field. My ultimate goal is to gain valuable industry experience, develop a strong professional network, and prepare myself for a successful career in computer science engineering.

## SKILLS

- JAVA ★ ★ ★ ★
- PYTHON ★ ★ ★
- Android Development(Flutter) ★ ★ ★
- HTML,CSS,JAVASCRIPT ★ ★ ★ ★

## PROJECTS

- **Indian Currency Detection**   
This web-based app uses computer vision and machine learning to detect Indian currency notes with a CNN model. Integrated with Flask, it recognizes the denomination of currency and provides voice output of its value via text-to-speech technology.
- **Note App**   
This is a Flutter note-taking app that integrates with Firebase for authentication and data storage. It allows users to create and manage notes, and it includes login, registration, and password reset features.
- **Portfolio**   
My portfolio website showcases a collection of my best work, displaying my skills and expertise in a visually appealing and user-friendly manner. It highlights my achievements, experience, and showcases my ability to create impactful designs and interactive experiences.

## EDUCATION

### B.TECH Computer Science

Future Institute of Engineering and Management

2020-2024 Avg CGPA-9.21

### Intermediate

DAV Public School

2018-2020 (61.4%)

## LANGUAGES KNOWN

- English
- Hindi

## OUTER SKILLS

- UI and UX designing
- Problem Solving
- Quick thinking

## ACHIEVEMENT

- 1st runner up in "DIRECTRIX" college level
