SUMMARY

As a fourth-year Computer Science Engineering student, I am eager to secure an internship or co-op position that allows me to apply and enhance my technical skills in a practical environment. I am actively seeking opportunities within dynamic organizations that offer challenging projects, encouraging critical thinking, fostering innovation, and requiring effective troubleshooting. My primary aim is to gain valuable industry experience, develop a robust professional network, and position myself for a prosperous career in computer science engineering.

EDUCATION

B.TECH Computer Science

Future Institute of Engineering and Management

2020-2024 Avg CGPA-9.091

Higher Secondary Education

DAV Public School

2020 (61.4%)

TECHNICAL SKILLS

Programming Languages :- JAVA, PYTHON

Hands-on Knowledge :- HTML 5, CSS 3, JavaScript, ReactJs

Other Tech :- Firebase, Flutter, GIT

ACHIEVEMENT

- 1st runner up in "DIRECTRIX" college level
- Participated in Smart India Hackathon.

STRENGTHS

Critical Thinking:

I possess strong critical thinking skills, allowing me to analyze complex problems, assess various solutions, and make informed decisions. My ability to approach challenges with a logical and analytical mindset enables me to find innovative solutions and contribute effectively to projects and teams.

Multitasking:

Proficient in handling multiple tasks simultaneously, effectively managing time, and prioritizing responsibilities to ensure efficient project execution.

Team Player:

I thrive in collaborative environments and am skilled at working effectively with diverse teams. I actively contribute to group efforts, share ideas, and support colleagues to achieve common goals. My ability to communicate, listen, and adapt makes me an asset to any team project.

Projects

Indian Currency Detection

- Web-based app
- Utilizes computer vision and machine learning
- Detects Indian currency notes using CNN model
- Integrated with Flask framework
- Provides voice output of currency value using text-to-speech tech

Recipe Website Project:

- Developed Recipe Website with HTML, CSS, JavaScript.
- Integrated Firebase for secure user authentication and database storage.
- Implemented recipe search by keywords, ingredients, or categories, showcasing problem-solving skills.
- Highlights commitment to user-friendly and secure solutions.

Note App

- Created a Flutter note-taking app
- Integrated Firebase for authentication and data storage
- Implemented features for note creation and management
- Developed user-friendly login, registration, and password reset functionalities
