As a Computer Science Engineering student in my fourth year of studies, my objective is to secure an internship or co-op opportunity that will allow me to apply and enhance my technical skills in a real-world setting. I am seeking a position in a dynamic organization where I can work on challenging projects and collaborate with experienced professionals in the field. My ultimate goal is to gain valuable industry experience, develop a strong professional network, and prepare myself for a successful career in computer science engineering.

SKILLS

- JAVA, PYTHON
- ANDROID DEVELOPMENT (Flutter)
- HTML,CSS,JAVASCRIPT,FIREBASE
- OBJECT ORIENTED PROGRAMMING
- DATA STRUCTURE AND ALGORITHM

PROJECTS

- **Indian Currency Detection** 🔗
  - Web-based app utilizing computer vision and machine learning
  - Detection of Indian currency notes using a CNN model
  - Integration with Flask framework
  - Recognition of currency denomination
  - Voice output of currency value through text-to-speech technology

- **Note App** 🔗
  - Flutter note-taking app
  - Integrates seamlessly with Firebase for authentication and data storage
  - Enables users to effortlessly create and manage notes
  - Incorporates essential features like login, registration, and password reset functionalities

- **Portfolio** 🔗
  - Portfolio website featuring a curated selection of my finest projects.
  - Demonstrates skills and expertise through visually captivating and user-centric design.
  - Showcases achievements, offering insight into my professional journey.
  - Highlights proficiency in crafting compelling designs and engaging interactive experiences.

EDUCATION

B.TECH Computer Science

Future Institute of Engineering and Management

2020-2024   Avg CGPA-9.21

Intermediate

DAV Public School

2018-2020   (61.4%)

LANGUAGES KNOWN

- English
- Hindi

OUTER SKILLS

- UI and UX designing
- Quick Thinking
- PROBLEM SOLVING
- Quick Learner

ACHIEVEMENT

- 1st runner up in "DIRECTRIX" (College level project competition)
